

PITBOSS+

WIFI CONNECTED SUMP PUMP COMBO

This **powerful** dual-pump system includes a primary pump for daily use and a **backup pump** for emergencies — all connected to WiFi for **real-time** system monitoring.

The PitBoss+ Combo gives you layered protection and smart alerts, so you're **always** one step ahead of potential basement flooding.

Stay **connected** and in **control**.

The **PitBoss+** smart backup pump constantly checks the condition of your sump system — monitoring the main pump, backup, and battery around the clock. If a problem is detected, you'll get **real-time alerts** right to your smartphone.

With the PitBoss+ App, you can track your system's performance **anytime, anywhere**.
